

# 國家同步輻射研究中心SRPO-990103 投標標價清單

## (NSRRC SRPO-990103 Bid Form)

項目 (Item)	標的名稱、規格及型號 (Bid model or spec. & Terminology)	數量 (Qty)	單價 (Unit price)	本項總價 (Sub-total price)	生產/製造/供應者 (original manufacture or supplier)	備註(Remark)
1.	Niobium cavity for the 500-MHz SRF Module for TPS	3				Technical Specification
2	High-power input couplers for the 500-MHz SRF Module for TPS	3				Technical Specification
3	Liquid-helium cryostat with its mechanical support(s) for the 500-MHz SRF Module for TPS	3				Technical Specification
4	Associated vacuum beam line components, LBP & SBP HOM dampers, mechanical support(s), frequency tuner, etc. for the 500-MHz SRF Module for TPS	3				Technical Specification
5	Spare RF-tested LBP & SBP HOM dampers, including assistant work at KEK, package, shipping, etc.	1				Technical Specification Item 23.2.1
6	Spare RF-conditioned inner coaxial for the high-power input coupler, including assistant work at KEK, package, shipping, etc.	1				Technical Specification Item 23.2.2
7	Spare 15D RF monitor antenna (pick-up) for the niobium cavity, including assistant work at KEK, package, shipping, etc.	1				Technical Specification Item 23.2.3
8	Spare rupture disk (0.098 MPa working pressure) for the liquid-helium vessel, including package, shipping, etc.	6				Technical Specification Item 23.2.4
9	Spare female and male bayonet joints for cryogenic connection between the 500-MHz SRF Module for TPS and the SRF valve box, including package, shipping, etc.	3				Technical Specification Item 23.2.5
10	Complete set of spare nuts, bolt and stubs used for assembly of the liquid-helium cryostat for the 500-MHz SRF Module for TPS, including package, shipping, etc.	9				Technical Specification Item 23.2.6
11	Complete set of spare vacuum seals used for vacuum sealing of the liquid-helium cryostat for the 500-MHz SRF Module for TPS, including package, shipping, etc.	3				Technical Specification Item 23.2.7
12	Assistance work for general system integration at KEK per 500-MHz SRF Module for TPS per process	3				Technical Specification
13	Assistance work for treatment of cavity at KEK per 500-MHz SRF Module for TPS per process	3				Technical Specification

14	Assistance work for high-power input coupler at KEK per 500-MHz SRF Module for TPS per process	3				Technical Specification
15	Assistance work for LBP & SBP HOM dampers at KEK per 500-MHz SRF Module for TPS per process	3				Technical Specification
16	Assistance work for assembly and tests at NSRRC per 500-MHz SRF Module for TPS per process	3				Technical Specification
17	Shipping, insurance & handling					Technical Specification Chapters 16 and 21
18	Warranty					Technical Specification
19	Others					Technical Specification
	<b>Total Price</b>
